ABSTRACT

Poverty is a global phenomenon which arises anytime in every parts of the world. It severely affects the marginalized too. In India, it happens due to marginalization, discrimination, exclusion and neglect in different occupations and social acceptance. Though there were so many programmes implemented by both central and state governments in India but it never been decreased at a larger extent. Therefore, this paper has been focused to alleviated poverty and protect marginalized with appropriate strategies.

KEY WORDS: Poverty, Marginalization, Magnitude, Acute
